

What is an Akashic Records reading?:

The Akashic Records are a vast “data base” – envision a big library – that reveals the depth and breadth of the wisdom of your soul through time. An Akashic Records reading is not predictive like an oracle. It is not a psychic reading. Rather it is a trusted source for accessing your unique truth supported by the masters, teachers and loved ones within the records whose only objective is to provide loving support and empower you.

Specifically, here is just a sample of what an Akashic Records Reading can provide for you:

- Clarity and confirmation regarding your choices and decisions
- Freedom from angst and worry
- Detailed information about how to achieve your goals
- Support in the reclamation of personal power and trust in yourself that you have the skills, the creativity, the know how, and the resources to accomplish what you envision
- Assistance in uncovering the root causes & conditions of problematic issues in order to easily resolve your challenges
- In-depth support in creating healthy, honest, loving relationships
- Directions for living the most fulfilled life possible...on purpose...expanding your capacity for joy...loving it all...savoring and celebrating the success you’ve longed for in your heart of hearts.

- You will feel like you've come home to yourself. It's the yummiest feeling ever.

The Protocol for the reading:

To access the Akashic Records, there is an opening prayer (a key to open the portal so to speak) and to conclude our reading there a closing prayer. Within the records, there is lots of support for you that will give us assistance regarding your objectives. There are extra perks to being in the records...such as increased peace of mind and an up-leveling of your energetic well-being to the highest states.

The Reading itself (facilitated by Max Wellspring):

The Akashic Records is all about authentic empowerment and a way to remember who you truly are.

The readings are a way to access the cosmic record of your soul through time. The facilitator is simply the guide for conveying your truth to you from the spiritual resource of the Akashic Records. The information reveals who you've been, who you are becoming and how you can most effectively be on purpose in your life in every area.

Many of the people Max has read for are seeking the confirmation of their life purpose with regards to their work in the world. Others want information regarding relationships, financial issues or health.

Bottom line...Max's feeling about the Akashic Records is that it's a portal for awakening.

There is no specific preparation for the call. However, if you have questions or intentions in mind that can be helpful. Or when you meet with Max, she can assist you in crafting your objectives so that together you maximize getting the results that will best benefit you. Truly the idea is just to relax and enjoy. You will find that your experience with the Records will always unfold beautifully revealing what's possible.
